## Connect to the MAGIC Printer

Andrew Sevigny - 2025-09-22 - [Basic Technical Support](#)

## Connect to the Printer in MAGIC

MAGIC Spell Studios has one printer located in the Main MAGIC Lab (3120) behind the front desk. Follow the directions below to connect an RIT networked Mac or PC to the printer.

1. Open your printer settings, navigate to add a new printer manually by IP address/hostname
2. Use the following address/hostname to set up a generic IPP device: [mss-3120-print.magic.rit.edu](http://mss-3120-print.magic.rit.edu)

### Note

**You may need admin privileges to install and set up printers.** If you need admin privileges on your computer, please submit a [support ticket](#) to MAGIC Tech.
