## Wegmans Theater - Blu-Ray Player and Universal Remote

Ben @ MAGIC Tech - 2026-01-23 - [Basic Technical Support](#)

### Setting up the Blu-Ray

1. Connect the Blu-Ray's power cord to power
2. Connect the Blu-Ray's **HDMI out** port to the HDMI input on the podium
3. Select **Laptop 1** on the podium screen and press **Share from Podium**
4. The screen should display a setup screen

### Connecting the Remote to the Blu-Ray player

If the Blu-Ray player is not responding to inputs from the remote, take the following steps:

1. Press a random button on the remote. If the red light at the top of the remote doesn't turn on while the button is pressed down, it needs new batteries. Otherwise, continue to step 2.
2. To connect the remote to the Blu-Ray player, do the following steps:
  1. Hold down the **setup** button on the remote until the light at the top is solid red, then let go
  2. Press the **b-ray** button at the top of the remote
  3. Type 2345 using the number pad on the remote
  4. The red light should turn off and the remote should be connected
